

Index Volume 41, 1980

March

- 3 **A CCD Comb Filter for Color TV Receiver Picture Enhancement**
Dalton H. Pritchard
- 29 **Design and Performance of a CCD Comb Filter IC**
Donald J. Sauer

Metaphosphate Glasses

- 57 **Introduction to Luminescent Glasses**
Tatsuo Takahashi
- 65 **Fluorescent Properties of Alkali and Alkaline Earth Rare Earth Metaphosphate Glass Phosphors**
T. Takahashi and O. Yamada
- 92 **Concentration Quenching of Luminescence in a Disordered System with Dipolar Interaction**
H. Fujita and M. Inoue
- 110 **Luminescence of Certain Terbiun Metaphosphate Glasses Under X-Ray Excitation**
T. Takahashi and O. Yamada
- 120 **Thermal Properties of New Metaphosphate Glasses**
O. Yamada and T. Takahashi
- 127 **Authors**
- 129 **Patents**

June

- 133 **Titanium Dioxide Antireflection Coating for Silicon Solar Cells by Spray Deposition**
Werner Kern and Edwin Tracy
- 181 **The Measurement of Deep Centers in Float Zone Silicon by Photovoltage Spectroscopy**
L. L. Jastrzebski and J. Lagowski
- 198 **GaAs MESFET Comparators for Gigabit-Rate Analog-to-Digital Converters**
L. C. Upadhyayula
- 213 **Comparison of Phase-Only and Conventional Monopulse in Thermal Noise**
Carmen N. Campopiano and Raymond S. Berkowitz
- 227 **Ion Implantation of Sulfur and Silicon in GaAs**
S. G. Liu, E. C. Douglas, C. P. Wu, C. W. Magee, S. Y. Narayan, S. T. Jolly, F. Kolondra, and S. Jain
- 263 **Patents**
- 265 **Authors**

September

- 273 **Foreword to Special Issue on Satellite Communications**
Harold Staras
- 275 **Syllabic Companding and Voice Capacity of a Transponder**
Krishnamurthy Jonnalagadda
- 296 **Maximizing Satellite Transponder Utilization**
Allan Guida
- 307 **Maximum Transponder Capacity for Transmission of FDM/FM Channels**
M. R. Freeling and W. H. Braun
- 339 **Capacity of Fixed-Assigned Versus Demand-Assigned Single-Channel-Per-Carrier Systems with Power-Limited Transponders**
L. Schiff
- 349 **Cancellation of Visible Color Crosstalk Between Two TV Signals by Use of Alternate Line Delay**
Liston Abbott
- 363 **Parameter Tradeoffs for Transmitting Two Television Channels Per Transponder**
Liston Abbott, G. W. Beakley, and W. T. Rowse
- 367 **Two-For-One Video Over Microwave Terrestrial Links**
Richard J. Klensch and Kevin Kelly
- 407 **A New Technique for Transmitting Two High Quality Video Signals Over a Single Terrestrial Microwave Channel**
G. S. Kaplan
- 423 **Security of a Popular Scrambling Scheme for TV Pictures**
V. Mangulis
- 433 **Time Division Multiple Access of Satellite Transponders by Analog Video Signals (On a Field- or Frame-Interleaved Basis)**
A. Acampora and G. Saulnier
- 449 **Dynamics of the Generalized Dual-Spin Turn**
Carl Hubert
- 472 **A 4-GHz GaAs FET Power Amplifier: An Advanced Transmitter for Satellite Down-Link Communication Systems**
B. Dornan, W. Slusark, Jr., Y. S. Wu, P. Pelka, R. Barton, H. Wolkstein, and H. Huang
- 504 **Patents**
- 507 **Authors**

December

- 517 **Kinescope Electron Gun Design**
R. Casanova Allg
- 537 **Evaluation of CMOS Transistor Related Design Rules**
Alfred C. Iprì
- 549 **Carrier Lifetime in Photovoltaic Solar Concentrator Cells by the Small-Signal Open-Circuit Decay Method**
A. R. Moore

- 563 **MOS Threshold Voltage Monitoring**
W. A. Rosenberg
- 577 **Low Frequency Excess Noise in SOS MOS FET's**
S. T. Hsu
- 592 **Review of Factors Affecting Warpage of Silicon Wafers**
D. Thebault and L. Jastrzebski
- 612 **Patents**
- 615 **Authors**
- 619 **Index to Vol. 41, 1980**

Index to Authors, Volume 41, 1980

- Liston Abbott Parameter Tradeoffs for Transmitting Two Television Channels Per Transponder, September, p. 363
- Cancellation of Visible Color Crosstalk Between Two TV Signals by Use of Alternate Line Delay, September, p. 349
- A. Acampora Time Division Multiple Access of Satellite Transponders by Analog Video Signals, September, p. 433
- R. Casanova Allg Kinescope Electron Gun Design, December, p. 517
- R. Barton A 4-GHz GaAs FET Power Amplifier: An Advanced Transmitter for Satellite Down-Link Communication Systems, September, p. 472
- G. W. Beakley Parameter Tradeoffs for Transmitting Two Television Channels Per Transponder, September, p. 363
- R. S. Berkowitz Comparison of Phase-Only and Conventional Monopulse in Thermal Noise, June, p. 213
- W. A. Rosenberg MOS Threshold Voltage Monitoring, December, p. 563
- W. H. Braun Maximum Transponder Capacity for Transmission of FDM/FM Channels, September, p. 307
- C. N. Campopiano Comparison of Phase-Only and Conventional Monopulse in Thermal Noise, June, p. 213
- B. Dornan A 4-GHz GaAs FET Power Amplifier: An Advanced Transmitter for Satellite Down-Link Communication Systems, September, p. 472
- E. C. Douglas Ion Implantation of Sulfur and Silicon in GaAs, June, p. 227
- M. R. Freeling Maximum Transponder Capacity for Transmission of FDM/FM Channels, September, p. 307
- H. Fujita Concentration Quenching of Luminescence in a Disordered System with Dipolar Interaction, March, p. 92
- A. Guida Maximizing Satellite Transponder Utilization, September, p. 296
- S. T. Hsu Low Frequency Excess Noise in SOS MOS FET's, December, p. 577
- H. Huang A 4-GHz GaAs FET Power Amplifier: An Advanced Transmitter for Satellite Down-Link Communication Systems, September, p. 472
- C. Hubert Dynamics of the Generalized Dual-Spin Turn, September, p. 449
- M. Inoue Concentration Quenching of Luminescence in a Disordered System with Dipolar Interaction, March, p. 92
- A. C. Iprì Evaluation of CMOS Transistor Related Design Rules, December, p. 537
- S. Jain Ion Implantation of Sulfur and Silicon in GaAs, June, p. 227
- L. L. Jastrzebski The Measurement of Deep Centers in Float Zone Silicon by Photovoltage Spectroscopy, June, p. 181
- Review of Factors Affecting Warpage of Silicon Wafers, December, p. 592
- S. T. Jolly Ion Implantation of Sulfur and Silicon in GaAs, June, p. 227
- K. Jonnalagadda Syllabic Companding and Voice Capacity of a Transponder, September, p. 275
- G. S. Kaplan A New Technique for Transmitting Two High Quality Video Signals Over a Single Terrestrial Microwave Channel, September, p. 407
- K. Kelly Two-For-One Video Over Microwave Terrestrial Links, September, p. 387
- W. Kern Titanium Dioxide Antireflection Coating for Silicon Solar Cells by Spray Deposition, June, p. 133

- R. J. Klensch** Two-For-One Video Over Microwave Terrestrial Links, September, p. 387
- F. Kolondra** Ion Implantation of Sulfur and Silicon in GaAs, June, p. 227
- J. Lagowski** The Measurement of Deep Centers in Float-Zone Silicon by Photovoltage Spectroscopy, June, p. 181
- S. G. Liu** Ion Implantation of Sulfur and Silicon in GaAs, June, p. 227
- C. W. Magee** Ion Implantation of Sulfur and Silicon in GaAs, June, p. 227
- V. Mangulis** Security of a Popular Scrambling Scheme for TV Pictures, September, p. 423
- A. R. Moore** Carrier Lifetime in Photovoltaic Solar Concentration Cells by the Small-Signal Open-Circuit Decay Method, December, p. 549
- S. Y. Narayan** Ion Implantation of Sulfur and Silicon in GaAs, June, p. 227
- P. Pelka** A 4-GHz GaAs FET Power Amplifier: An Advanced Transmitter for Satellite Down-Link Communication Systems, September, p. 472
- D. H. Pritchard** A CCD Comb Filter for Color TV Receiver Picture Enhancement, March, p. 3
- W. T. Rowse** Parameter Tradeoffs for Transmitting Two Television Channels per Transponder, September, p. 363
- D. J. Sauer** Design and Performance of a CCD Comb Filter IC, March, p. 29
- G. Saulnier** Time Division Multiple Access of Satellite Transponders by Analog Video Signals, September, p. 433
- L. Schiff** Capacity of Fixed-Assigned Versus Demand-Assigned Single-Channel-Per-Carrier Systems with Power-Limited Transponders, September, p. 339
- W. Slusark, Jr.** A 4-GHz GaAs FET Power Amplifier: An Advanced Transmitter for Satellite Down-Link Communication Systems, September, p. 472
- H. Staras** Foreword to Special Issue on Satellite Communications, September, p. 273
- T. Takahashi** Introduction to Luminescent Glasses, March, p. 57
- Fluorescent Properties of Alkali and Alkaline Earth Rare Earth Metaphosphate Glass Phosphors, March, p. 65
- Luminescence of Certain Terbium Metaphosphate Glasses under X-Ray Excitation, March, p. 110
- Thermal Properties of New Metaphosphate Glasses, March, p. 120
- D. Thebaud** Review of Factors Affecting Warpage of Silicon Wafers, December, p. 592
- E. Tracy** Titanium Dioxide Antireflection Coating for Silicon Solar Cells by Spray Deposition, June, p. 133
- L. C. Upadhyayula** GaAs MESFET Comparators for Gigabit-Rate Analog-to-Digital Converters, June, p. 198
- H. Wolkstein** A 4-GHz GaAs FET Power Amplifier: An Advanced Transmitter for Satellite Down-Link Communication Systems, September, p. 472
- C. P. Wu** Ion Implantation of Sulfur and Silicon in GaAs, June, p. 227
- Y. S. Wu** A 4-GHz GaAs FET Power Amplifier: An Advanced Transmitter for Satellite Down-Link Communication Systems, September, p. 472
- O. Yamada** Fluorescent Properties of Alkali and Alkaline Earth Rare Earth Metaphosphate Glass Phosphors, March, p. 65
- Luminescence of Certain Terbium Metaphosphate Glasses Under X-Ray Excitation, March, p. 110
- Thermal Properties of New Metaphosphate Glasses, March, p. 120
